Education

University of North Carolina at Charlotte

Bachelor's Degree Sports Analytics

Expected Graduation: 2029

Relevant Coursework:

- Statistics
- Data Analytics
- Regression Analysis
- Data Visualization
- Python Programming

Technical Skills

- Python
- Microsoft Excel
- Data Analysis
- Statistical Modeling
- Linear Regression
- Data Visualization
- Microsoft Office Suite

Experience

United States Marine Corps – Radio Operator

- Planned and managed communication networks during training and field operations.
- Coordinated communication between multiple fire support agencies.
- Maintained accountability of mission-critical communications equipment.
- Trained junior Marines on radio systems and communication procedures.
- Operated effectively in high-pressure environments requiring teamwork and attention to detail.

Lead Line Cook / Pizza Maker

- Led kitchen operations during high-volume shifts.
- Trained new employees on food preparation and safety procedures.
- Maintained quality standards while working efficiently under pressure.
- Assisted with opening and closing responsibilities.

Athletic Trainer Assistant

- Assisted in training high school athletes on proper exercise technique.
- Demonstrated movement mechanics and injury prevention methods.
- Helped organize workouts and monitor athlete progress.
- Worked closely with coaching staff to support athlete development.

Projects

NFL Draft Analytics

- Independently evaluated NFL Draft prospects using statistical analysis and film study.
- Successfully predicted the first six selections of an NFL Draft, including a major trade.
- Created player evaluations and rankings using measurable data and football analysis.

Sports Data Analytics Projects

- Built regression models using Python to analyze real-world datasets.
- Conducted residual analysis, heteroscedasticity testing, model diagnostics, and confidence interval prediction.
- Created visualizations to communicate findings effectively.

Leadership

- Mentored junior Marines in communications procedures.
- Worked collaboratively within cross-functional teams.
- Demonstrated leadership in fast-paced operational environments.

Awards & Certifications

- United States Marine Corps Veteran
- Congressional Gold Medal

Interests

Sports Analytics • Football Data Analysis • NFL Draft Evaluation • Data Visualization • Statistical Modeling
